ASSIGNING SESSIONS/SEATS

As a Vizual Edge organization you can create several teams under one organization. You must properly assign sessions/seats amongst those teams and athletes. In order to use the Edge Trainer, each athlete must be assigned a seat/session.

1. After logging into the organization’s general manager account, click on the ORGANIZATION SETTINGS tab on the left-hand menu.

2. After selecting ORGANIZATION SETTINGS, you will be directed to the ORGANIZATION SETTINGS page. Select MANAGE PLAN.
3. After choosing **MANAGE PLAN**, you will see your plan details including number of sessions/seats and how long your subscription is.

![Image of Manage Plan section]

**NOTE:** Under **ASSIGN SEATS/SESSIONS** you will see how many seats/sessions you have available. If you need to purchase more seats/session select **ADD SEATS/SESSIONS** by clicking the button on the right.

4. After ensuring you have the appropriate number of seats/sessions, click the + or − buttons next to your team names to allocate sessions to your teams.

5. After assigning seats/sessions to your teams, you now need to assign seats/sessions to athletes.

NOTE: If you invite athletes after assigning seats to your teams, the athletes will automatically be assigned a seat/session after creating their profile.

NOTE: If the athletes were created prior to assigning seats/sessions to your team, you will need to assign seats/sessions to each athlete that has been previously created.

In order to assign a seat/session to athletes, you will need to select the **TEAM SETTINGS** tab from the left-hand menu.
6. After selecting **TEAM SETTINGS**, you will be directed to the **MANAGE TEAMS** page. Click the dropdown arrow under **SELECT TEAM** to choose the correct team.

7. After selecting the correct team, you will see a list of your previously created athletes. Click on the + button next to each athlete, under the **SEAT/SESSION** column to assign a seat/session to that athlete.

NOTE: Athletes will now be able to use the Edge Trainer upon logging in.
