

## GRANTING 'COACH ACCESS' TO VIEW ACCOUNTS

Athletes have the ability to grant 'Coach Access' to users they wish to view, monitor or access their Vizual Edge scores, progress and results. **Disclaimer:** Granting 'Coach Access' increases the risk of your scores and data being shared online. Please be certain you wish to grant 'Coach Access' to the trusted person with your data.

1. As an individual user, click on the **TEAM SETTINGS** tab on the left-hand menu. If you do not have this menu option, please contact [support@vizualedge.com](mailto:support@vizualedge.com) to update your account.

2. Under **TEAM SETTINGS** select the **Invite Coach(es)** button

- Then enter the email(s) of people you want to have access to your account/data and click **SEND INVITES**.

3. This person(s) will immediately receive an email to join your team with 'Coach Access' to view your scores/progress/data upon successfully linking their account.

### Instructions for user granted 'Coach Access'

1. On the email you receive from the athlete, you have two options to get your access set up:
  1. Create a brand-new username (*usually for first-time users*) with your own username/password to view this athlete's data
  2. Link it to a pre-existing account you have already created

2. After you have successfully linked your account, you can view all of your linked accounts by clicking the drop-down menu near your name
